Living with Chronic Myeloid Leukemia
Patient Education Telephone/Web Program

Wednesday, November 2, 2016
12:00 pm to 1:00 pm Eastern Time
11:00 am to 12:00 pm Central Time
10:00 am to 11:00 am Mountain Time
9:00 am to 10:00 am Pacific Time

Dear Participant:

On behalf of The Leukemia & Lymphoma Society (LLS), thank you for registering for the upcoming free telephone/web education program, Living with Chronic Myeloid Leukemia with featured speaker Michael Deininger, MD, PhD. Support for this program provided by ARIAD Pharmaceuticals Inc. and Novartis Pharmaceutical Corporation.

Participate by selecting one of two convenient ways:
Telephone: Call toll-free (877) 407-9221, 15 minutes prior to start time.
Computer: Log into http://cml.LLS.education 5 minutes prior to start time.

Included in this packet you will find:

1. Program Agenda
2. Dr. Michael Deininger Biography
4. Flyer: Telephone and Web Patient Education Programs
5. Flyer: Nutrition Consults
6. Flyer: Information Specialist and Online Chats
7. Flyer: Web Education Videos
8. Flyer: Publications in English and Spanish
9. Brochure: Here to Help
10. Brochure: CML Assistance

Presentation slides will be available the day of the program by visiting www.LLS.org/programs. (Select program listing to view slides.)

If you need additional program packets, please call toll-free (888) 510-9390. To download or order free educational materials, visit www.LLS.org/booklets. To access materials in Spanish, please visit www.LLS.org/materiales.

For more information about this or other programs and services offered by LLS, please call an LLS Information Specialist toll-free at (800) 955-4572. Information Specialists are master’s level oncology professionals who are available to assist you.

We look forward to your participation in this program and thank you for joining us.

Sincerely,

Lizette Figueroa-Rivera, MA,
Senior Manager, Patient and Professional Education Programs
The Leukemia & Lymphoma Society
Living with Chronic Myeloid Leukemia
Patient Education Telephone/Web Program

Wednesday, November 2, 2016
12:00 pm to 1:00 pm Eastern Time
11:00 am to 12:00 pm Central Time
10:00 am to 11:00 am Mountain Time
9:00 am to 10:00 am Pacific Time

AGENDA

11:45 AM – 12:00 PM ET  Join the program:
Dial-in: (877) 407-9221
Log-in: http://cml.LLS.education

12:00 PM – 12:05 PM ET  Welcome and Introductions
Lizette Figueroa-Rivera, MA
Senior Manager, Patient and Professional Education Programs
The Leukemia & Lymphoma Society

12:05 PM – 12:40 PM ET  Presentation
Michael Deininger, MD, PhD
Chief, Division of Hematology and Hematologic Malignancies
M.M. Wintrobe Professor of Medicine
University of Utah
Senior Director for Transdisciplinary Research
Huntsman Cancer Institute
Salt Lake City, Utah

Dr. Deininger will discuss:

- How chronic myeloid leukemia (CML) is diagnosed
- Monitoring CML
- Current treatment options for newly diagnosed and relapsed/refractory patients
- The role of clinical trials in improving treatment
- The management of CML treatment side effects
- The importance of open communication with your healthcare team

12:40 PM – 12:59 PM ET  Question and Answer Session

12:59 PM – 1:00 PM ET  Summary and Conclusion
Lizette Figueroa-Rivera, MA
Michael Deininger, MD, PhD
Chief, Division of Hematology and Hematologic Malignancies
M.M. Wintrobe Professor of Medicine
University of Utah
Senior Director for Transdisciplinary Research
Huntsman Cancer Institute
Salt Lake City, Utah

Michael Deininger MD, PhD is Professor and Chief of Hematology and Hematologic Malignancies in the Department of Internal Medicine and the Huntsman Cancer Institute (HCI) at the University of Utah. He is an HCI investigator and member of the Experimental Therapeutics program. He has extensive experience treating patients with blood cancers, including chronic myeloid leukemia (CML) and myeloproliferative neoplasms, a group of blood cancers related to leukemia.

Dr. Deininger received his MD from the University of Würzburg Medical School in Germany, in 1990. Throughout his studies he was funded by the prestigious German Scholarship Foundation. He subsequently trained in Internal Medicine and Hematology/Oncology. In 1995 he obtained a grant to enroll in the PhD program at Imperial College in London. His thesis work focused on signal transduction and the potential use of imatinib (Gleevec) as molecularly targeted therapy for CML. After returning to Germany, he completed a fellowship in stem cell transplantation at the University of Leipzig Medical Center. In 2002, he was recruited to the Division of Hematology and Medical Oncology at Oregon Health & Science University (OHSU) as an Assistant Professor. In 2007 he was promoted to the rank of Associate Professor and became the Head of the Hematologic Malignancies Section at OHSU. In August 2010 Dr. Deininger became the M.M. Wintrobe Professor of Medicine at the University of Utah and was appointed Chief of the Division of Hematology and Hematologic Malignancies. He was also appointed Senior Director for Transdisciplinary Research at Huntsman Cancer Institute.

Dr. Deininger’s scientific focus is leukemia, specifically myeloproliferative neoplasms (MPN), including CML, chronic myelomonocytic leukemia (CMML) and myelofibrosis (MF). As a clinician-scientist with a translational research focus, Dr. Deininger currently heads an extramurally funded research laboratory that is dedicated to the study of signaling pathways, drug resistance and new molecular therapies in leukemia. Dr. Deininger’s work describing the selective effects of imatinib on CML cells, provided the rationale for clinical trials that led to the approval of Gleevec® as the first molecularly-based therapy for leukemia. Current work in his lab is focused on understanding the role of the bone marrow microenvironment in leukemia drug resistance, discovering novel therapeutic targets and developing more specific signal transmission inhibitors. Dr. Deininger’s work encompasses more than 200 articles in the peer-reviewed literature, including journals like Cancer Cell, Blood, Journal of Clinical Investigation and the New England Journal of Medicine. He has co-authored more than 10 book chapters, with contributions in leading textbooks such as DeVita’s Principles of Oncology. He is a regular speaker at major international scientific meetings, such as the American Society of Hematology and the European Hematology Association and a peer reviewer for journals like Nature Genetics and Cancer Cell. His honors include the Alexandra Kefalides Prize for Leukemia Research, membership on the Editorial Board of Blood (the leading journal in Hematology) and Thompson Reuters Highly Cited Researcher award in 2014 and 2015. Dr. Deininger serves as the Vice Chair for the NCCN CML panel and is a member of the NCCN MPN panel. As of 2016 he is a standing member of the Developmental Therapeutics Study Section, Center for Scientific Review.
Win a $50 Amazon Gift Card**
Please help us to plan future education programs. Complete this form or complete it online at www.llseval.org to be entered to win. (See end of form to complete your entry.)

1) I am attending this telephone-web program as a (select one).
   *If family member or healthcare professional, select sub-category as well

- Patient
- Caregiver
- Family Member*
  - Parent
  - Child
  - Sibling
  - Spouse/Partner/Significant
  - Extended Family Member
- Other_________
- Friend/Concerned Individual
- Healthcare Professional*
  - Physician
  - PCP
  - Nurse
  - NP
  - PA
  - Pharmacist
  - Medical Assistant
  - Pharmaceutical Rep
  - Radiation Tech
  - Psychologist
  - Social Worker
  - Hospital/Homebound Teacher
  - Other HCP
- Community Member
- LLS Staff
- Volunteer
- Other (Please describe)_________

2) What is your date of birth? (DD/MM/YYYY)_________/_________/_________

3) What is your gender?  □ Male  □ Female

4) What is your Zip code or Postal code: ______________________________________

5) What is your Race? (check all that apply) / Ethnicity (select Y or N for Hispanic Latino’s)
   - American Indian or Alaska Native
   - Asian
   - Black or African American
   - Native Hawaiian or Pacific Islander
   - White or Caucasian
   - Other Race: _______________________
   - Hispanic/Latino: □ Yes  □ No

6) Have you or the patient been diagnosed with a blood cancer?  □ N/A  □ Yes  □ No
   If no, please tell us the type of cancer which you were diagnosed: _______________________
   If yes, when were you diagnosed? (DD/MM/YYYY) ________/______/_______  □ Check if approximate date
   If yes, please tell us what type of blood cancer (check all that apply):
   - Acute myeloid leukemia (AML)
   - Acute lymphoblastic leukemia (ALL)
   - Chronic myeloid leukemia (CML)
   - Chronic lymphocytic leukemia (CLL)
   - Hodgkin lymphoma (HL)
   - Non-Hodgkin lymphoma (NHL)
   - Multiple Myeloma
   - Myelodysplastic syndromes (MDS)
   - Myeloproliferative neoplasms (MPN)
   - Polycthemia Vera, Essential Thrombocythemia, Myelofibrosis
   - Other (please specify)________________

Are you or the patient currently being treated? □ Yes  □ No

What treatments have you or the patient had? (check all that apply):
- Single drug therapy (oral medication or IV)
- Combination drug therapy (chemotherapy)
- Blood Transfusions
- Radiation Therapy
- Stem Cell transplantation
- Leukapheresis
- Aspirin Therapy
- N/A
7) Are you presently in or have you ever participated in a clinical trial? □ N/A □ Yes □ No

8) Please give us your feedback about the program (Select one answer for each)
As a result of participating in this program, to what extent do you agree with the following statements?

**NEW RESOURCE!**

**LLS COMMUNITY**

LLS Community is an interactive, online patient and caregiver social network and registry designed to accelerate change and amplify the collective voice of those living with a blood cancer.

**How can LLS Community help?**

**GET SUPPORT**
Connect with others who have been through it. LLS Community is a place to talk with other people affected by blood cancers.

**GET INFORMED**
Get access to valuable information, education, and resources. The information on LLS Community is accurate, up-to-date and from a trusted source.

**MAKE AN IMPACT**
Too often, traditional research has excluded the patient’s voice, the voice that matters most. LLS Community relies on patient experiences and insights to drive program development and research studies that address the needs and real-world challenges of patients living with blood cancer.

Visit [communityview.LLS.org](http://communityview.LLS.org) to learn more!
The Leukemia & Lymphoma Society’s (LLS) Information Specialists provide patients, families and healthcare professionals with the latest information on leukemia, lymphoma and myeloma. Our team consists of master’s level social workers, nurses and health educators who are available by phone Monday through Friday, 9 am to 9 pm (ET), or by emailing infocenter@LLS.org.

For a complete directory of our patient services programs, contact us at 800.955.4572 or www.LLS.org (Callers may request a language interpreter.)
Online Chats

The Leukemia & Lymphoma Society Online Chats are free, live sessions, moderated by oncology social workers. The moderators help to guide discussions as well as provide resources, information, and support.

The chats provide a forum for those impacted by cancer to share experiences and offer mutual support.

To register for one of the chats below, or for more information, please visit www.LLS.org/chat.
(Note: A laptop or desktop computer is needed to participate. The chat platform cannot support tablets or smartphones.)

Financial Assistance for CML Patients

Do you have chronic myeloid leukemia (CML)?

Your doctor may order a certain blood test, called Polymerase Chain Reaction (PCR), which can find a very small number of CML cells in your blood. The results will help your doctor know if your CML is under control. People with CML should get this test regularly.

This test is important because it is a Powerful Chance to learn Results

We can help you pay for this test. We can provide up to $1,000 of your PCR testing costs that are not covered by insurance during your enrollment period.

Contact us to see if you are eligible:
Call 877-614-9242 or visit www.LLS.org/PCR.
¿Tiene usted leucemia mieloide crónica (CML, por sus siglas en inglés)?

Es posible que su médico ordene una prueba de sangre llamada reacción en cadena de la polimerasa (PCR, por sus siglas en inglés), que se usa para detectar un número muy pequeño de células de la leucemia mieloide crónica en la sangre. Los resultados le ayudarán a su médico a determinar si su leucemia mieloide crónica está bajo control. Las personas con leucemia mieloide crónica deben someterse a esta prueba médica con frecuencia.

Esta prueba es importante porque es un provechoso Chance de conocer de los Resultados

Podemos ayudarlo a pagar la prueba.

Podemos aportar hasta un máximo de $1,000 para cubrir el costo de las pruebas de reacción en cadena de la polimerasa que no está cubierto por el plan de seguro médico durante su periodo de inscripción.

Comuníquese con nosotros para averiguar si reúne los requisitos:

Llame al 877-614-9242 o visite www.LLS.org/PCR (en inglés)
